

# Accepted Training Providers

The following courses are accepted by Arqiva as demonstrating suitable training and instruction for access onto Arqiva's mast, tower and rooftop portfolio. Companies wishing to access Arqiva's sites will be required to have attended the below courses, dependent upon the level of access required.

## Tower Climber & Rescue Accepted Training Providers

**Refer to the Energy & Utility Skills Register and select 'Basic Tower Climbing & Rescue (MATS)' to find the training providers accepted by Arqiva**

<https://www.eusr.co.uk/schemes-programmes/skills-based-schemes/>

## Point of Contact

If you have any queries regarding the above mentioned list or would like to have your training syllabi reviewed by Arqiva to become an accepted training provider then please contact the Safety, Health and Environment Department on the following email address: [messagefromtheshed@arqiva.com](mailto:messagefromtheshed@arqiva.com)

We will only review new training provider syllabus if a request has been made by a company that is already accredited on the Gateway system. The review process can take up to one month to complete. The training company will be expected to provide full details of their course including any presentations, lesson plans, handouts, course notes and descriptions of any practical elements. Failure to provide the full information may result in delays to your application.

New accepted courses will be added to the above list once they have been reviewed by the Arqiva Safety, Health and Environment Department.
